

Doctor Philippe Huyghe

Graduated in 1990 as ophthalmologist University Ghent, RUG

From 1990 to 2005: Consultant, Department of Vitreo-Retinal surgery at Hôpital Saint-Pierre, University Brussels (ULB)

Since 1990 Private Practice, Sint-Niklaas and Staff Member at AZ Nikolaas Hospital.

In 1994 Dr. Huyghe published the first article in Europe where a new technique for cataract surgery under topical anesthesia was described by a larger group of patients.

Since then this method is still the standard procedure for the operation of cataract.

Since 2008 ophthalmic surgeon at Park Leopold Clinic, Brussels Retina Specialist Association
